

GC DATA CATALOGUE

CSV HEADER DEFINITION

This document describes the headings used in the Data Catalogue CSV files first published by each of the Geo6 organisations* in January 2019. This information is also available as a JSON schema [HERE](#).

Column_Name	Obligation	Description
Organisation	Mandatory	Organisation name or Organisation acronym.
Dataset_Title	Mandatory	Publishing Organisation's official title for the dataset.
Abstract	Mandatory	Publishing Organisation's description of the dataset.
INSPIRE_Theme	Mandatory	Semi-colon separated list of INSPIRE Theme (s) best describing the dataset.
INSPIRE_Feature_Type	Conditional ¹	Semi-colon separated list of the INSPIRE Feature Type (s) best describing the dataset.
GC_Theme	Conditional ²	Semi-colon separated list of keyword values drawn from other Industry vocabularies – e.g. GEMET or industry terms in common usage, where INSPIRE definition is not applicable.
Constraints	Optional	This field outlines any licencing or intellectual property constraints (where known) e.g. if a dataset is published as part of a product or where another organisation has contributed content to the dataset.
Metadata_published_on_dguk	Mandatory	A metadata record for this dataset exists on DGUK.
Data_published	Mandatory	A free text field to capture where the data is published. This could be a list of products, with a semi-colon separator where there are multiples Or Where possible a URL to the data will be provided.

Conditions

¹ When an INSPIRE Theme is either null or set as 'No Applicable Theme' INSPIRE_Feature_Type must be null

² When an INSPIRE Theme is either null or set as 'No Applicable Theme' a Geo6 Theme must not be null.

* British Geological Survey (BGS), Coal Authority (CA), HM Land Registry (LR), UK Hydrographic Office (UKHO), Valuation Office Agency (VoA) and the Ordnance Survey (OS). Collectively known as the 'Geo6' and working on behalf of the [Geospatial Commission](#).
